

# Dana Nelson

Dana Nelson has been competing in agility for over 15 years. She has placed multiple championships on several of dogs and has qualified for the AKC National Championships several years in a row. She has several young up and coming dogs that she's very excited about. Currently Dana has three Australian Shepherds and a Golden Retriever. Dana's coaching philosophy and dog training style are the same for dogs and their owners. She is attentive, upbeat, positive and playful. She loves going over different handling strategies to determine what works best for each individual team and she will gently push her students out of their comfort zones, striving for improvement. Dana herself is a student of the sport of agility, taking seminars and classes to continue to improve and stay abreast with the latest in handling strategies and course design. Dana has classes for everyone - beginning to advanced students and offers private lessons as well as occasional workshops.
